Reference is made to your consultant's, Environ, Telecopier Transmittal, dated March 17, 1994, transmitting a map depicting the proposed new location for off-site well cluster OW-1. As your consultant indicated, access was denied by the City of Burbank to the original location of the cluster well, due to underground obstructions present underlying the proposed area. We have reviewed the information and site specific conditions and have no objections to the re-location of the off-site well cluster OW-1 to the north-eastern intersecting corner of the Southern Pacific Railroad and Alameda.

If you have any questions, please contact Ms. Ana Veloz at (213) 266-7590.
